His-impatience was asserting itself again now, as Borfein sat in the chambers of Judge William Fulmire, the Mayflower H's Supreme Justice, listening to Howard Kalens and Marcia Quarrey argue over the finer points of the Mission's constitution, while on the surface the troops were fraternizing openly with what could become the enemy, and two years away in space the EAF starship dally drew nearer. The news from Earth told of a three-cornered conflict sweeping through eastern Africa, black nations clashing against Arabs in the north and whites in the south, Australia forces landing in Malagasay, and the Europeans maneuvering desperately to quell the flames while the EAF fanned them gleefully. That news would long ago have overtaken the Pagoda

He sat back, looked from side to side for moral support, got plenty, and shook his head helplessly. "It seemed too good to be true at first, but that soon wears off. It's not funny anymore, chief. A cart was following them with a few odds and ends inside. He gaped at Bernard and Jay in surprise, then grinned. "Hey! So Jay dragged you out to see the sights, eh? Hello, Jay. Started making friends already?" Introductions were exchanged with smiles and handshakes. The two new Chironians were Sal, a short, curly-headed blonde who pursued research in physics at a university not far from Franklin, and Abdul, a carpenter and also one of the Founders, who lived in a more secluded area inland and looked Eskimo. Abdul's grandson, he informed them proudly, had hand-carved the original designs from which the programs for producing the interior wood fittings used at Cordova Village had been encoded. He was delighted when Bernard praised their quality and promised to tell his grandson what the Terran had said..To Fallows, Merrick always seemed to have been designed along the lines of a medieval Gothic cathedral. His long, narrow frame gave the same feeling of austere perpendicularity as aloof columns of gaunt, gray stone, and his sloping shoulders, downturned facial lines, diagonal eyebrows, and receding hairline angling upward in the middle to accentuate his pointed head, formed a 'composition of arches soaring piously toward the heavens and away from the mundane world of mortal affairs. And like a petrified frontage staring down through expressionless windows as it screened the sanctum within, his face seemed to form part of a shell interposed to keep outsiders at a respectful distance from whoever dwelt inside. Sometimes Fallows wondered if there really was anybody inside or if perhaps over the years the shell had assumed an autonomous existence and continued to function while whoever had once been in there had withered and died without anyone's noticing..About all he was good with outside things like that was cards. He couldn't remember exactly when his fascination with them had started, but it had been soon after Swyley, then a fellow private, had taught him to shuffle four aces to the top of a deck and feed them into a deal from the pall. Or.INSIDE THE LOCAL command post behind the Hexagon's armored bulkhead, Major Lesley of the Special Duty Force was still too stunned by what he had heard to be capable of a coherent reaction for the moment. He stared at the companel where a screen showed a view from the Columbia District, where the SD guard commander had entered the Communications Center under a truce flag some minutes previously to talk with Borftein, and tried to separate the conflicting emotions in his head. Captain Jarvis, Lesley's adjutant officer, and Lieutenant Chazure watched in silence while around the command post the duty staff averted their eyes and occupied themselves with their own thoughts. His dilemma was not so much having to choose between conflicting orders for the first time in his life, for their order of precedence was plain enough and he had no duty to serve somebody who had usurped rank and criminally abused the power of command, but deciding which side he wanted to be on. But it was"-she shrugged- "warm, friendly..., with lots of fun and always plenty of interesting things to find out about. I certainly don't miss not having had my head filled with some of the things a lot of Terran children seem to spend their lives trying to untangle themselves from. "That may be, but it's beside the point that I was trying to make," Merrick said. "Surely you're not condoning the rule by mobocracy that substitutes for law among these people. Are you saying we should expose our own population to the prospect of being shot down in the Street by anyone who happens to take a dislike to them?". "No you don't. Now that Swley had moved from the bar, her party manner had given way to something more intimate. Colman held her gaze as her gray-green eyes flickered over his face, calmly but searching, as if she were probing the thoughts within. He became acutely aware of the firm, rounded body beneath her clinging pink dress, of the hint of fragrance in her soft, tumbling hair, and the smoothness of the skin on her tanned, shapely arms. Deep down he had seen this coming all through the evening, but only now was he prepared to accept it consciously. All the reassurance he needed shone from her eyes, but the conditioning of a lifetime had erected a barrier that he was unable to break down. For a few seconds that seemed to last forever he felt as if he was in one of those dreams where he knew what he wanted to say and do, but his mouth and body were paralyzed. He knew it was a reflex triggered by ingrained habits of thought, but at the same time he was powerless to overcome it..Colman nodded thoughtfully to himself and conceded the point. And I regret to admit, when I came to you, my expectations weren't terribly.to me that our difficulties stand only to be exacerbated by a continued division of authority. Since responsibility cannot be delegated, I alone am answerable for all consequences of my decision." He paused to look around the room, and then took a long breath. "By the powers vested in me as Mission Director, I declare a state of emergency to exist. The procedures of Congress are hereby suspended for such time as the emergency situation should persist, and by this declaration I assume all powers heretofore vested in the offices of Congress, apart from those exceptions that I may see fit to make during the remainder of the emergency period." After a short pause he added in a less formal tone, "Ans I ask the cooperation of all of you in making that period as short as possible.". "Bad enough," he admitted..Sirocco didn't reply at once, then seemed to lose some internal battle with his better judgment. "Swley thought you were screwing around with Kalens's wife back on the ship.".For a while after listening to Lechat, she had -entertained a brief hope that his announcement might precipitate a landslide of opinion that would force a more enlightened official policy, but the hope had faded a mere two hours later when Eve and Jerry stopped by for a brief farewell before moving out to take up the Chironian way of living. Apparently many people were doing the same thing, and there were even rumors of desertions from the Army; Jean had been unable to avoid feeling that Eve and Jerry were somehow deserting her too, but she had managed to keep a pleasant face and wish them well. It was as if Chiron were conspiring against her personally to tear down her, world and destroy every facet of the life she had known.. "Minnie's pretty flat-chested.".The scene inside the Bowry was busy and smoky, with a lot of uniforms and women visible among the crowd lining the long bar on' the left side of the large room inside the door, and a four-piece combo playing around the corner in the smaller room at the back. Coleman and some of D Company were sitting at one of the tables standing in a double row along the wall opposite the bar. Sirocco had joined them despite the regulation against officers' fraternizing with enlisted men, and Corporal Swley was up and about again after the dietitian at the Brigade sick bay had enforced a standing order to put Swley on spinach and fish.The killers had been even closer on his trail than he'd feared. What he sensed, stepping into that upstairs.ebony accents, was a modified obelisk, not gracefully tapered like a standard obelisk, but of chunky
