Although the only light on the back porch came from the pale beams

that filtered out through the curtains on the kitchen windows, all these faces seemed luminous, almost preternaturally aglow, like the kiln-fired countenances of saints in a dark church, lit solely by the flames of votive candles. The rain—a music of sorts, and the jasmine and incense, and the moment sacred. "A ship without an anchor can never be at rest," he answered. "It's at the mercy of the sea." He looked at the two cards following the four of clubs in the stack. Neither of these was a jack of spades, either, and both were what he anticipated. The 9-mm pistol and the ammunition were on the foyer table. With trembling hands, Junior tore open the boxes and loaded the gun. He went upstairs to change out of his dark blue suit and badly scuffed black shoes. From these ominous spatters, several fibers bristled, having stuck to the pewter when the drizzle was still wet. They appeared to be human hairs. Sitting on a stool at the counter, he ordered a cheeseburger, coleslaw, french fries, and a cherry Coke. Moving around the front of the station wagon, waving at his mother, reveling in her astonishment, Barty shouted, "Not scary! On the short return trip to the ophthalmologist, Agnes crazily considered driving past Chan's office building, cruising onward—ever onward—into the sparkling December night, not just back to Bright Beach, where the bad news would simply come by phone, but to places so far away that the diagnosis could never catch up to them, where the disease would remain unnamed and therefore would have no power over Barty. Somehow, Agnes knew that in his younger days, Obadiah had been a stage magician. Artlessly, she drew him out on the subject. So that my mind could move about among the years and centuries without getting things all out of order, and to keep contradictions and discrepancies at a minimum while I was writing these stories, I became (somewhat) more systematic and methodical, and put my knowledge of the peoples and their history together into "A Description of Earthsea." Its function is like that of the first big map I drew of all the Archipelago and the Reaches, when I began to work on A Wizard of Earthsea over thirty years ago: I needed to know where things are, and how to get from here to there—in time as well as in space. Outside, he realized he hadn't paid for his juice and waffles. When he turned back to the coffee shop, he saw, through one of the windows, an associate of Salk's picking up the check from his table. She was forty-three, so young to have left such a mark upon the world. Yet more than two thousand people attended her funeral service—which was conducted by clergymen of seven denominations—and the subsequent procession to the cemetery was so lengthy that some people had to park a mile away and walk. The mourners streamed across the grassy hills and among the headstones for the longest time, but the presiding minister did not begin the graveside service until all had assembled. None here showed impatience at the delay. Indeed, when the final prayer was said and the casket lowered, the crowd hesitated to depart, lingering in the most unusual way, until Barty realized that like he himself, they half expected a miraculous resurrection and ascension, for among them had so recently walked this one who was without stain. Near midnight, she returned to her apartment. Lights out, in bed, staring at the ceiling, she was unable to sleep. He decided to use the tool just three times on each deadbolt before trying the door. The less noise the better. Maybe luck would be with him. "Why do you think he's spending his money for all this tricky stuff?" Kathleen wondered, not for the first time. This baffled Junior. To the best of his recollection, during the weeks that Seraphim had come to him for physical therapy, she had never mentioned an older sister or any sister at all. "I'll come by at eight o'clock for breakfast," Wally suggested. "We have to set a date." Glorifying in the cloudless day and the warmer than usual weather, he drove seventy miles north, through phalanxes of evergreens that marched down the steep hills to the scenic coast. All the way, he monitored the traffic in his rearview mirror. No one followed him. After supper in a roadside diner, Paul returned to his room and studied a tattered map of the western United States, the latest of several he'd worn out over the years. Depending on the weather and the steepness of the terrain, he might be able to reach Spruce Hills, Oregon, in ten days. By lunch, he had turned the final page, and he was so full of the tale that he seemed to have no room for food. While his mother kept reminding him to eat, he regaled her with the details of John Thomas Stuart's great adventures with Lummo, as though every word that Heinlein had written were not science fiction, but truth. From childhood, Celestina was encouraged to be confident that life had meaning, and when she'd needed to share that belief with Dr. Lipscomb as he struggled to come to terms with his experience in the operating room, she'd done so without hesitation. Strangely, however, she herself was having difficulty absorbing these two small miracles. After she flushed, Angel stood on a stepstool and washed her hands at the sink. As one, those around the table raised their eyes to the ceiling and smiled at the sound of the downpour. Barty, with patches over his empty sockets, also looked up with a smile. AFTER THE ENCOUNTER with the quarter-spitting vending machines, Junior wanted to kill another Bartholomew, any Bartholomew, even if he had to drive to some far suburb like Terra Linda to do it, even if he had to drive farther and stay overnight in a Holiday Inn and eat steam-table food off a buffet crawling with other diners' cold germs and garnished with their loose hairs.
